# Simon's Great Cash Raising Sale! OUR ENTIRE STOCK TO CHOOSE FROM

HAVING purchased a business in Lexington, I find it takes more cash than I had anticipated, therefore I have decided to turn a certain amount of the stock of our Paris store into cash. It is only after you've thought for a minute, and realize the enormity of the stock of goods to be turned into cash at once, that the full force of this great merchandising event becomes apparent. It is not merely a November or Clearance Sale, not merely the selling off of odds and ends, but-

> The absolute necessity of turning the desired amount of goods into cash, notwithstanding the great loss it entails to us to do so!

Then, too, when the high class of the goods is considered, is it to be wondered at that we have prepared for the greatest sale of any kind, at any time, for any reason whatever?

## SUGAR FAMINE BEING FELT IN PARIS.

Paris housekeepers and those who use a great deal of sugar are beginning to realize the extent of the sugar shortage in the United States. It is not possible to obtain over twenty-five cents' worth of the sweet stuff from the retailers, and the wholesale houses report the situation will be very acute for some time yet.

Mr. Henry Power, of the Power Grocery Co., stated yesterday that the shortage is apt to continue for some time yet, or until the Government gets the wheels to working so as to get the new crop out. The Government, he states, had declared that Central Kentucky was out of the beet sugar territory, and it was hardly possible to get much relief from that source. He said that the shortage would be relieved not earlier than December, when the Cuban and Louisiana sugar crops would come on the market.

There is very little granulated sugar on the Paris market and grocers and wholesalers do not know when there will be any to supply the market. Yesterday a number of housekeeper canvassed both sides of Main street to see what the real situation was, and they found to their dismay that it had not been misrepresented. Some of them even have as guests at their home on got a number of old bachelors who had no use for sugar to go to the retailers and buy to the limit, which was not over twenty-five cents' worth to any one customer. In this way they got enough for their immediate needs.

When asked for his opinion on THE NEWS: "It is my honest opinion that the Government is going to put a price of eight cents a pound on sugar, which is two or three cents a pound cheaper than the wholesale dealers will not stock up on the high priced sugar. Beet sugar will be coming on the market some time in December, and this will furnish us with a plentiful supply of the saccharine article. That's about all I can say in regard to the shortage. It can't last all the time, that's a certainty. We are hoping for the best. It has been in a way amusing to hear the excuses some housekeepers have put up in an effort to get more than their share of sugar from the grocers. The food administrator controls only the wholesaler and they fix a price at which the wholesaler must sell the sugar, but the retailer will be controlled through the wholesaler as the food administrator will require "French Breakfast" Coffee any retailer who sells the sugar -Miss Lillian Naylor and neph- above the reasonable retail price to

foo Ill to Walk Upright. Operation Advised. Saved by Lydia E. Pinkham's Vegetable Compound.

This woman now raises chickens and does manual labor. Read her story: Richmond, Ind.-"For two years I was so sick and weak with troubles from my age that

when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me

to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness dis-appeared, I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. #### PLOWS UP ALLIGATORS.

Mrs. George Nichols, of Harrodsburg, has received a letter from her son, Albert Collier, who is now employed in the erection of the aviation camp at Lake Charles, La., in which he tells her of plowing up three alligators in the course of his work recently. They had evidently burrowed under the sandy soil for a good old snooze when the Mercer James S. Mullins, P. D. Avent, Louis man disturbed them. There was an old alligator about eight feet long and two small ones, and Mr. Collier took off his necktie and captured one of the little 'gators and led him had gotten it for 10 cents. # Suffered Several Years. PERUNA MADE ME WELL

Mrs. Elizabeth Reuther, 1002 11th St. N. W., Washington, D. C., writes: 'I endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered several years. I took it for several months, found my health was restored and have felt splendidly ever since. I now take it when I contract a cold, and it soon rids the system of any catarrhal tendencies."

Those who object to liquid medicines can procure Peruna Tablets.

## To Recall the Operator Move the Hook SLOWLY!

When you move your receiver hook up and down to recall the telephone operator, what you really do is to turn on and off a small electric signal light on the switchboard before her.

Of course, when you try to turn the little switchboard light on and off too rapidly, like any other electric light, it may not glow.

It is important, therefore, that you move the hook SLOWLY, so that the light will glow and the operator will know you are trying to attract her attention.

That's why the quickest way to recall the operator is to remove the receiver hook up and down SLOWLY.

#### \$100—REWARD—\$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

#### A COLLEGE MAN'S VIEW

The "International" is the stock man's school of efficiency. Never has there been a time when there was such need of efficient methods in meat production. Never has there been such need of a marshaling of all resources and all forces for production on the farms of the United States. The "International" will impress lessons of conservation and efficiency in production of incalculable value. These lessons will have a special significance in view of the unusual conditions now existing. No man engaged in a great enterprise such as farming and food production, at a time when the best re sults are vital to the nation's existence, can afford to fail to secure information that will add to his efficiency and strengthen the services he can render. This is the meaning of the International Live Stock Exposition at Chicago the first week in December.
